Summary

Frontend Developer with real-world experience specializing in React, Next.js, TypeScript, and modern UI frameworks. Strong record of delivering pixel-perfect, accessible, and scalable UIs with measurable improvements in speed, reliability, and user experience. Skilled at translating designs into production-ready products, optimizing performance, and leading small teams through agile workflows.

Education

University of Information and Technology - VNUHCM

Expected: March 2026

Bachelor of E-Commerce, GPA: 7.8/10

Skills

Programming Languages: C/C++, PHP, JavaScript, TypeScript

Frontend: HTML5, CSS3, ReactJS, React Native, Next.js, Tailwind CSS, shadcn/ui, Redux, React Query

Tools & Others: Git, Odoo, Figma, UI/UX design, Chrome DevTools, AI-assisted tools, Wordpress, Vercel

Language: TOEIC 820/990 scores

Soft Skills: Team Collaboration, Effective Planning, Usability Research, Prioritization Skill

Work Experience

Frontend Developer Intern, Atom Solution – District 7, HCM

March 2025 - May 2025

- Built 10+ production-ready UI screens in Next.js & Tailwind with near pixel-perfect design fidelity.
- Structured and maintained a Kanban-based task system in Odoo for task reviews and approvals.
- Led UI testing workflow, cutting visual bugs by 60% through structured reviews.
- Improve team velocity by implementing GitLab branching, issue tracking, and merge review practices.

Projects

TVE Technical – Freelance

June 2025 – July 2025

- Architected a headless Next.js website with WordPress CMS via GraphQL, hitting 100/100 Lighthouse scores.
- Engineered a custom CMS with 5+ content types using ACF, cut FCP by 40%, API calls down 60%.
- Orchestrated CI/CD across Vercel, Render, and TiDB. Integrated multilingual support (EN/VN).

Laandlin – School Project

April 2025 – June 2025

- Led a 6-member team to develop a React Native e-commerce app with Node.js/Express backend.
- Reduced API response time from 800ms to 210ms by optimizing MongoDB queries and pagination logic.
- Deployed the backend server on Vercel, ensuring smooth and scalable hosting.

Laandlin E-Commerce Website – Freelance

July 2024 - January 2025

- Developed and designed the frontend of the Laandlin E-commerce website.
- Implemented a unified color palette across more than 25 user and admin interface pages.
- Reduced bundle size from 20MB to 2MB result in 90% faster loads.

Frenzy – School Project

February 2024 – May 2024

- Led a 5-member team delivering a full-stack MVC pattern e-commerce website in 10 weeks.
- Architected the application using MVC pattern, designing a 15 table MySQL database.
- Improved DB query speed by 40% and reduced user bugs by 15% via usability testing.
